

INTERIOR PROTECTION

A driver's spilled coffee or a child's sloppy snack are mishaps you can almost always expect for your car or RV's interior, but what about bigger messes and more unexpected mishaps? A cut from a hockey skate, or a tear from a forgotten object in your pocket? An accidental spray that stains your headliner? With Platinum Shield Interior Protection, you can get:

FABRIC PROTECTION:

An invisible barrier that prevents liquids from soaking in and ensures easy clean-up of spills. It penetrates individual fibres in the fabric to repel moisture and dirt and prevent permanent staining, while allowing the treated fabric to breathe. This treatment won't change the colour or texture of the fabric or leave a residual odour.

LEATHER/VINYL PROTECTION:

A penetrating conditioner that protects against cracking and hardening of leather or vinyl by locking in essential oils and pigments and screening against the sun's powerful UV rays. The flat satin finish of a protected dashboard eliminates glare and reduces dust.

Rip, Tear or Burn Guarantee: An upgrade that guarantees against perforation due to accidental rips, tears or burns. It requires either Fabric or Leather/Vinyl Protection.

PAINT PROTECTION:

The sun's powerful UV rays will cause your vehicle or RV's paint to fade and the clear-coat finish on your vehicle or RV's painted surface is uneven, allowing dirt, salt, pollutants, and moisture to get trapped. This can dull your vehicle or RV's finish, ruin its look, and affect its resale value.

Platinum Shield Paint Protection is a long-lasting sealant that enhances the paint's clear coating. It protects paint from fading by reflecting UV rays and its durable finish leaves the surface significantly smoother with no need for waxing.

An Environmental Paint Guarantee upgrade is available for vehicle plans which also protects against damage caused by acid rain, tree sap, and bird droppings.
