DESIGNER SERIES™
TRAVEL
TRAILERS &
FIFTH WHEELS

WELCOME HOME

THE 1995 DESIGNER SERIES™: THE LUXURY YOU EXPECT... UNEXPECTEDLY AFFORDABLE!

Designer Series travel trailers and fifth wheels have the look, the “feel,” the warm, home-like atmosphere most RVers associate with the finest luxury RVs. And for good reason: They *are* luxurious!

What sets the Designer Series apart, however, is its *value*. All its style, all its comforts are yours for a price thousands of dollars *below* that of other, similarly “upscale” RVs. Result: You needn't empty your wallet to fill your life with the features you see on the following pages.

On the Cover: Designer Series 2600 FS Travel Trailer, top, and Designer Series 3030 RK Fifth Wheel, with Optional Fiberglass Sidewalls

▼ Designer Series 2600 FS Travel Trailer, Teal Decor

▲ Designer Series 3030 RK Fifth Wheel, Brown Decor

Designer Series Luxury Upgrades:

- ▶ Exquisite professionally designed interiors
- ▶ Solid-oak cabinet doors and drawers with raised front panels
- ▶ Elegant high-line designer fabrics
- ▶ Window treatments with padded valances, strong metal mini blinds and color-coordinated drapes with tie-backs
- ▶ A decor-enhancing chair rail of solid oak
- ▶ Fashionable, practical countertops edged with rich oak inlays

Continued on Page 4 ...

▲ Optional Sidewalls of Smooth, High-gloss Fiberglass shown on Designer Series 3030 RK Fifth Wheel, right. Standard Aluminum Sidewalls shown on Designer Series 3420 FK SS Travel Trailer

...Continued from Page 3

- ▶ An entertainment center with a standard overhead cabinet in most models
- ▶ Tight-gripping, spring-loaded roller catches on all cabinets
- ▶ Thoughtful, strategically placed nightlights
- ▶ A decorator clock
- ▶ Access doors to a storage area under the dinette seating
- ▶ A systems monitor panel on the range hood
- ▶ A decor-coordinated oak door front on the refrigerator
- ▶ Bathroom hardware with a bright, warm, brass-like finish
- ▶ An easy-to-clean ABS tub surround
- ▶ A fashionable pleated shower door in most models
- ▶ A padded headboard on travel trailer beds
- ▶ A fine, quilted, designer bedspread with a matching pillow sham and two matching throw cushions
- ▶ Exterior end caps of attractive, durable molded fiberglass
- ▶ A fiberglass front stoneguard (on travel trailers) — recessed for a sleek appearance

- ▶ Sidewalls radius-wrapped along the bottom and the top for a more “finished,” aerodynamic look
- ▶ An aluminum-covered bumper

Other Notable Standard Features:

In addition to the luxury upgrades described above, Designer Series travel trailers and fifth wheels offer these superb, travel-enhancing standards...

▲ A Garden Tub is standard in several models, including the 3420 FK SS Travel Trailer shown here

Two Corner Wardrobes are standard in all Fifth Wheel bedrooms.
▼ Shown here in 3030 RK, Brown Decor

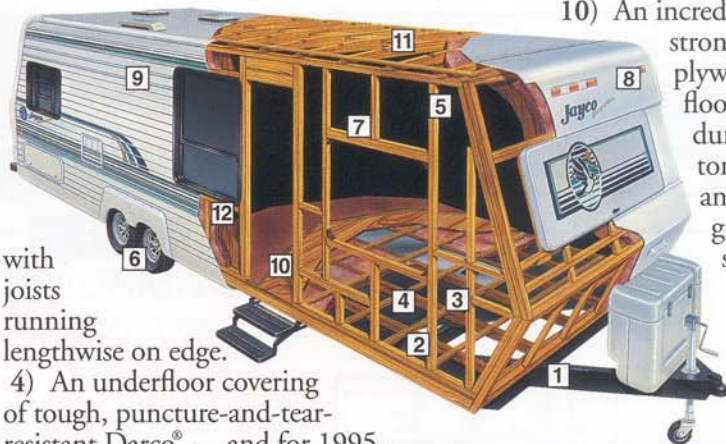

Clockwise from top: Blue, Teal, Brown, Clay

- ▶ Space-adding slide-out sections — standard in select models; optional in most — including the option of Jayco's huge SuperSlides in many models
- ▶ A Jayco-made J-steel convertible sofa that has comfy layered-foam cushioning and a hinged front for access to a storage area underneath
- ▶ Drawer sides of real wood, not particle board
- ▶ A three-burner range with a 9000 BTU high-output front burner and an oversized built-in oven
- ▶ In-floor ducted heating
- ▶ An oak cutting board
- ▶ A walk-around queen bed that lifts up easily on piston supports to expose a large storage area underneath
- ▶ An innerspring mattress
- ▶ Two bedroom-corner wardrobes in fifth-wheel models; shirt closets in most travel trailers
- ▶ A convenient flip-up TV shelf in most bedrooms
- ▶ A water-heater bypass that simplifies winterizations; saves time and money
- ▶ A water-system winterization kit

CONSTRUCTION

With these features, we ensure that your Designer Series travel trailer or fifth wheel will provide pleasure mile after mile, year after year:

- 1) A heavy-gauge, 6" steel-tube frame (a 12" frame on SuperSlide models).
- 2) Heavy-duty steel outriggers for total wall-to-wall floor support.
- 3) A 2x3 longitudinal floor system —
- front and rear end caps.
- 9) A heavy-duty aluminum outer skin — thicker at mid- and lower-wall (.024" compared to .019" at the top), so it's more dent-and-scratch-resistant where it's most likely to need that extra protection.
- 10) An incredibly strong plywood floor with durable tongue-and-groove seams.
- 11) Strong 2x4 roof rafters, tapered to provide a slope for proper water runoff.
- 12) Superior fiberglass insulation cut and glued between the studs throughout — stays put, eliminates uninsulated spots, retains high insulation value, and helps make Designer Series RVs ideal for year-round use.

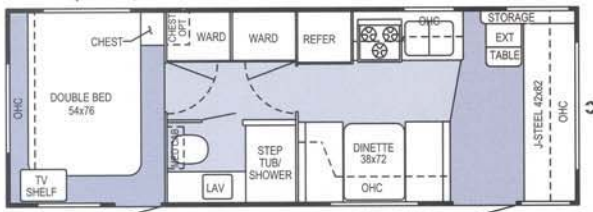

with joists running lengthwise on edge.

- 4) An underfloor covering of tough, puncture-and-tear-resistant Darco® — and for 1995, we've added the option of a fully enclosed aluminum underbelly.
- 5) Walls with 2x2 studs on 16" centers for greater strength and rigidity.
- 6) Insulated wheel wells of galvanized steel for strength and rust-resistance.
- 7) 2x3s across the tops of all windows for extra reinforcement.
- 8) One-piece, molded-fiberglass

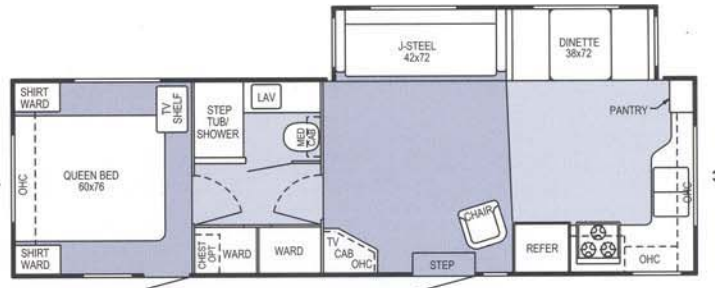

Optional sidewalls of smooth, high-gloss fiberglass give the exterior an even more refined look. For maximum strength, the fiberglass is laminated to luan and attached to studs with high-bond adhesive.
