Patented Outside Tailgater Camp Kitchen
32 in. LED cargo TV
Sani-Con® Turbo Waste Management System

THE JAYCO DIFFERENCE

A Reputation for Craftsmanship

At Jayco, we've spent more than 50 years building a reputation for superior construction. We take great pride in knowing that our RVs are built to handle generations of family fun thanks to quality materials and innovative techniques. And it makes us even more proud to know that we stand behind every product with an industry-leading 2+3 warranty.

Oversized nail plates

We use oversized nail plate joint fasteners on both sides of trusses, making for a much tighter assembly with less chance of movement.

Safer wiring

Using wood studs instead of aluminum provides much smoother edges to run wiring along and greatly reduces the risk of electrical shorts.

Screwed, not stapled construction:

We screw down 3/8" roof decking at each seam for a more secured structure and reduced chance that fasteners will come loose and puncture roof material.

Thicker wood studs, not thinner aluminum

Instead of a 1" piece of aluminum, vertical 2x2" studs are used for maximized load capacity. To further enhance strength, nail plates are applied to each side of the stud.

7" header beams

Similar to what's used for load bearing areas in home construction, we use header beams between the roof and slideout openings.

The strongest roof in the industry—50% stronger than the competition

The Magnum Truss Roof System is standard on all Jayco travel trailers and fifth wheels

The JAYCOMMAND® system puts RVers in full control of their unit. The system was custom-built by our product development teams along with various supplier partners (depending on the model), so that owners can monitor and control key RV operations from a phone or a tablet.

Two *Unique & Beautiful* Concepts

Every fixture, fabric and feature has been carefully selected and expertly installed. The result is an aesthetic that's extraordinary - with Jayco's famous high level of live-ability. Led by Interior Designer Stacy Stewart, our design, product development and engineering teams set out to answer the call for more choice in RV interiors and developed a market-disrupting design concept that could be expertly crafted without hampering production.

True interior design. More choice. Mindful craftsmanship.

Jayco's exclusive Stronghold VBL™ (vacuum bond lamination) wall construction process uses vacuum bonding to combine laminated fiberglass with welded aluminum framing, metal backers, decorative interior wall panels, and fiberglass exterior siding. This super-durable structure is designed specifically for heavy use and travel while still reducing weight.

5-STAR HANDLING PACKAGE

(Seismic)

This Handling Package is a Jayco exclusive, a powerful blend of high-end, American-made components that make pulling a luxury fifth wheel a breeze.

DEXTER® AXLES WITH NEV-R-ADJUST BRAKES

The benchmark of the trailer industry!

GOODYEAR® BEAST TIRES

Made in the U.S.A.
and featuring the patented
Durawall® technology.

DEXTER® SHACKLES WITH WET BOLT FASTENERS AND BRONZE BUSHINGS

Resists the wear-and-tear
of towing.

MORRYDE® RUBBERIZED SUSPENSION SYSTEM

Better absorbs and isolates
road shock.

MORRYDE® PIN BOX

Allows pin box to travel forward
and backward as well as
side-to-side, creating a
smoother tow.

CLIMATE SHIELD

ULTIMATE WEATHER PROTECTION

Extend your camping season with the Jayco Climate Shield. (N/A Jay Flight Octane)

It protects against extreme heat and extreme freezing—even in temperatures
as high as 100 degrees or as low as zero degrees (Fahrenheit).*

BEDROOM	LIVING ROOM	KITCHEN	BATHROOM	HOLDING TANK
0°F 71°F	0°F 70°F	0°F 69°F	0°F 71°F	0°F 60°F
100°F 71°F	100°F 69°F	100°F 70°F	100°F 68°F	100°F 72°F

*Jayco tested RV's in zero degrees F and 100 degrees F weather over an extended period of time in a controlled environment, and all functions of the coach were fully operational. Testing was done in a completely controlled environment; therefore, temperatures during testing may not represent actual temperatures in nature and cannot account for elements such as wind or moisture. In actual use, unit may not perform as well. Supplier of cooling components does not guarantee anything better than 20 degrees difference from ambient temperature. In addition, outside components are subject to freezing and require steps to properly insulate. Jayco's limited warranty does not cover damage caused by freezing. To learn more about Climate Shield and testing done by Jayco, visit www.jayco.com.

strong foundations

Reliable RVs start with strong frames

At Jayco, we know everything is riding on the frame. That's why we don't cut corners when it comes to our RVs' foundations. We use some of the industry's strongest frames. Unlike other manufacturers who build on stock frames, every Jayco RV has its own custom-sized frame, eliminating modifying and welding that would otherwise compromise the foundation.

JaySMART™ Lighting

LED light system, which provides
360 degrees of driver intentionality

Jayco's exclusive, patent-pending JaySMART™ lighting system more clearly indicates braking, reverse travel and turn signals to others on the road or at camp.

2+3

YEAR | YEAR
LIMITED | STRUCTURAL
WARRANTY

Travel With Confidence

NO ONE OFFERS A BETTER WARRANTY

At Jayco, we build our RVs to handle every adventure, then back them with our industry-leading 2+3 limited warranty. Our 2-year limited warranty has you covered for 2 camping seasons. That's 730 days. In addition, our 3-year structural limited warranty has you covered for 3 camping seasons or 1,095 days. You won't find a better limited warranty in the business, because the only strings that we attach are those that deliver the ultimate in reliability. That's the Jayco difference. So go explore. For a copy of our 2-year limited + 3-year structural limited warranty with complete terms and conditions, please contact your local Jayco dealer.

From the sales experience to service after the sale, we consider our dealers to be an important part of the Jayco family. Establishing a solid relationship with your local Jayco dealer is a key component in the enjoyment of your new Jayco. By purchasing from a local dealer, you will have a convenient location for sales, parts and service support. We hope you consider them a part of your camping family.
