

RIVER RANCH

BY COLUMBUS

RIVER RANCH

BY COLUMBUS

The River Ranch is taking 5th Wheel Trailers to a level never before dreamed of. It is shaking up the market with its single level ranch style design. River Ranch combines the best aspects of three different RV types including the largest basement storage capacity available and interior ceiling height of a class A motor home, the tow ability of a 5th wheel, and the single level living floorplan of a travel trailer. The one-of-a-kind River Ranch—where practical living, storage, tow ability and lavish style sets a new bar of RV luxury.

"Don't just imagine it, live it."

Specification Definitions

GVWR (Gross Vehicle Weight Rating): is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.
GAWR (Gross Axle Weight Rating): is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by a combination of all axles. **UVW (Unloaded Vehicle Weight):** is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s) and tongue or pin and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories. **CCC (Cargo Carrying Capacity):*** is the amount of weight available for fresh potable water, cargo, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 IWW per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity. Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities. The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Forest River, Inc., reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Forest River dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. © 2022 Palomino RV, a Division of Forest River, Inc., a Berkshire Hathaway Company. 11/01 Columbus
