RV FEATURES

AN **RV FEATURE COMPARISON**  
*that will* ROCK YOUR WORLD

# TOPPING THE CHARTS

**You've got your mind set on it. You're going to buy a new RV.**

Now, it's just a matter of finding the perfect RV for you. You know that once you find the RV of your dreams, you will live (or camp) together in perfect harmony.

But what can make such a harmonious connection between man and machine?

**Glad you asked. Think about some of the best hit records in all of music history.** A lot of times, big hits come from great collaborations... and great features. When a song features multiple artists, it's that extra element that really elevates a song to a whole new level. It's what can make a chart topper.

It's the same idea when it comes to RV features. Of course you have to decide what kind of model and floor plan you're looking for, but you can't truly make music until you've picked out all of your bells and whistles. Once you've decided what features are worthy of a solo, and which you could just place as background noise, you'll be one step closer to getting an RV that will rock your world.

Lucky for you, we have compiled this feature guide, packed with all the information you need to know about the hottest features on the lot. Soon you'll be turning the key and hauling your RV off to experience amazing adventures. First stop, the Good Life. Ahhh, now that is music to our ears.

12 July 1962,

**These guidelines will provide you a snapshot of what you can expect to see when you're looking to purchase your rig.** Remember that there are financing options available, and a Good Life RV specialist can help you determine a monthly payment plan that fits your budget.

It's time to dive on in and see what we have identified as the features that give you the most bang for your buck. Once you choose your must-have features, you and your RV will be the hardest rocking duo on the road!

# BASELINE (Starting at \$12K)

Awning

Kitchen

## NO NONSENSE

The baseline package offers the standard aspects that every RV has. If you're the no-nonsense "simpler is better" type, this price tier might be for you. An RV at this price point will be smaller, but will still have all of the essentials. Overall, basic safety features like **smoke, LP, and carbon monoxide detectors, fire extinguishers, and safety breakaways** come standard. Along with safety features, every RV will have a **bed, bathroom, AM/FM radio, AC and a small kitchen area.**

## CLOSER LOOK

**Awning** An awning creates a welcoming atmosphere outside of your RV. This feature really adds a homey touch, and comes in handy when it's raining too!

**Bathroom** Having your own bathroom while you're traveling is an added comfort that is very valuable for RVers. Each baseline RV has a full bathroom with a small sink area, shower, and foot flush toilet. A lot of RVs at this price point will even have a skylight over the shower, which are great for letting in some natural light.

**Porcelain Toilet** Admit it, having a porcelain throne for your royal hiney is important. These feature upgrades are the touches that increase the RV experience. With a bathroom that feels homey, you will surely feel like the king or queen of your RV.

**Kitchen** In a baseline RV kitchen, you will find a small microwave, a 2 to 3 burner stove with oven, and a small two door refrigerator. There will be a small amount of counter space for preparation, and a sink for washing up.

2016 Heartland Trail Runner 23SLE

**Climate Control** On those hot summer days, you will surely want to crank the AC to make your RV comfortable. And on those cold

nights, you may want to turn on the heat. Even on the baseline package, you will find heating and cooling in all units.

**Bed** No need to worry about the comfort of a hotel bed! At the baseline level, you will find that most RVs offer a queen sized bed. Sleeping space will be limited if you have other guests, but

Bed

many models offer a bunkhouse or transformable sleeping space (like a jackknife couch) if you need more sleeping space.

**DSI Water Heater** The days of fumbling around with a lighter just so you can get some hot water are over. Many baseline RVs come with an auto ignition water heater, complete with a wall thermostat. This water heater can be automatically lit for hassle free steamy water.

**Dual LP** Forget about having to change the tank when it's empty. With dual liquid propane tanks, you won't have to worry about switching to the next tank. Simply turn the switch, and the system does the rest!

# \$20-40K FEATURES

Outdoor Kitchen

Dining Slideout

## ADDED BENEFITS

**When looking at the 20K price tier of RVs,** you will find that they are anywhere from 22 to 27 feet in length, and can sleep from 4 to 10 people. Depending on the make and model you choose, RVs in this price range often have at least one slideout.

## CLOSER LOOK

**Black Tank Flush** It may not sound like the most luxurious feature, but you will be thankful for it when it's time to clean out your black tank. Having a black tank flush makes the cleaning process quicker and more effective.

**Outdoor Kitchen** If you love cooking up camping cuisine, you won't want to do without an outdoor kitchen. An outdoor kitchen is great for entertaining, especially while you are tailgating. Not to mention, your indoor kitchen won't get crowded! At this price range you will find a modest set up usually including a mini-fridge, counter space, a small burner/grill and a sink.

**Slideout(s)** Have you ever wanted to make your RV larger with just the push of a button? With slideouts you can do just that. Once you are parked at your campsite, extend your slideouts for more space inside your RV. At the 20K price tier, most rigs will only feature one slideout.

some gizmos will make a great home away from home entertainment system. Don't settle for just radio and DVD capability, having bluetooth and an LCD TV is what sets this feature apart.

# \$40-60K FEATURES

Home Theatre HDTV

Power Leveling

## MOVIN' UP

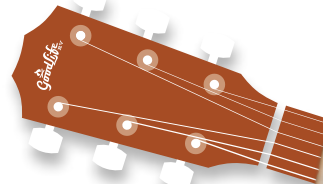

**When you reach the 40k price tier,** you will start to see larger layouts and more utilitarian upgrades like stabilization and laundry hookups. These rigs can be anywhere from 31 to 36 feet long, and will typically have 3 to 4 slideouts.

## CLOSER LOOK

**Wired for Back Up Camera** Sometimes you wish you had eyes on the back of your RV, especially when you're backing up. Rigs in this price range can have wiring for a back up camera, so you can back out of spaces stress free.

**Laundry HookUps** You spilled that s'more right down the front of your shirt. Now what? In the 40k price tier, you have washer and dryer hookups in your RV so that you can easily keep your wardrobe clean.

**Power Leveling** Once you hunker down at your campsite, you need to have your RV level. A power leveling system will ensure that your refrigerator is level and running properly, and that guests can sit comfortably in the cabin without leaning one way.

**Home Theatre HDTV** One of the best ways to top off that campfire is to go inside and watch a scary movie. With the home theatre feature, you have an HDTV right there in your RV. Now the only thing you need to get is the popcorn.

**Gel Coat Fiberglass** Do you want your RV to have that super smooth, shiny look? Then you need the gel coat finish. Sure, fiberglass alone looks slick, but adding the gel coat takes your RV's exterior up a notch in style.

CHECK IT OUT!

Want to take a look at some RVs in this price range that boast most of these features? You could check out these awesome rigs!

**Rear Garage** Mostly found on Toy Haulers, the rear garage is a unique RV feature that can be very

valuable depending on your lifestyle. Want to bring your hog or ATV along? There'll be plenty of room for them in your garage.

**Front Cap** If you want your RV to have an extra element of style, a front cap is a must have. Not only does the front cap look great, but it's aerodynamic design is easy on your wallet when you are flying down the road.

# \$60-80K FEATURES

Rear Garage With Patio Deck Option

Oversized Sink

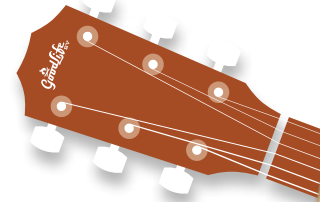

## BIG HIT

**As you start working your way up the pricing tier, you will begin to see more features that are fit for full-timers.** This is especially clear in the 60K and up price range where you have perks like a full sized refrigerator, ceiling fans and extra AC. All of these added comforts make an RV feel even more like home.

## CLOSER LOOK

**Oversized Stainless Steel Sink:** Having a dual, stainless steel sink is a feature you won't want to miss out on. At this price range, you will see deeper sinks made of durable and easy to clean stainless steel. These larger sinks can be filled with more water and have more space when you are washing up or preparing food.

**Front to Rear Vaulted Ceilings:** Vaulted ceilings make the most out of an RV's space by making it feel larger and more open. In this price range, you can find RVs that have front to rear vaulted ceilings, which really opens up the space and gives it a homey feeling.

**Bedroom AC Thermostat:** There's nothing worse than sleeping in a hot bedroom. That's why this price tier features a second AC unit with a thermostat control for the bedroom. Dual Zone climate control helps keep you more comfortable where you need it.

**Rear Garage Screen Wall:** A feature found in toy hauler RV models, the rear garage screen easily transforms your garage area into a screened in porch. With one simple modification, you can easily keep out bugs and create a lounge area.

If having some of these features in a brand new RV sounds like the Good Life to you, you might like these road warriors!

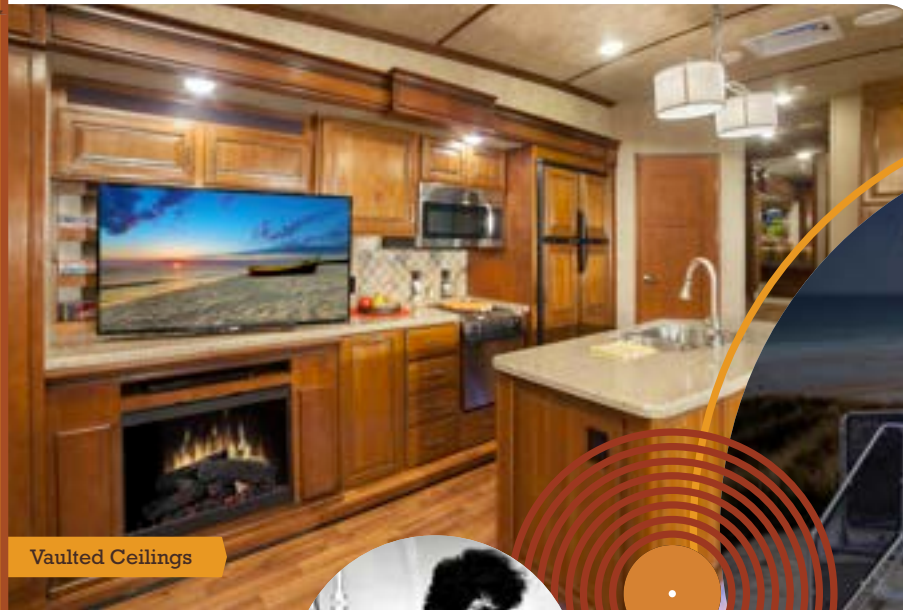

**Ceiling Fans:** Sometimes you just need a little breeze while you're in your RV. In the 60k price range, you will start to see little perks like ceiling

fans. This feature will keep you cool while also giving your RV that homey, finished look.

**18 CU Fridge:** Don't worry about running out of space in the fridge anymore! The 18 CU fridge is the same size as the one in your kitchen at home. With a full freezer and double door fridge, you won't need to worry about running out of space to keep your chillables chilled.

 \$80K+ FEATURES

Outdoor Entertainment System

Master Suite

## TOP OF THE CHARTS

**Welcome to the top! You've reached the mack daddy of features at this point.** Haulers with these kind of perks fall into the 80K and above price range, and for a good reason. With features like an outdoor entertainment system, and ballroom effect slideouts, it's no wonder these rigs sit at the top of the price tier mountain. At a whopping 42 feet in length, these RVs are packed with everything you could ever dream of.

## CLOSER LOOK

### **Outdoor Entertainment System with 32" TV:**

One of the biggest, baddest features in the 80k plus price range is the outdoor entertainment system. Located behind a simple flip up compartment, you will find an outdoor entertainment system fit for a king. Now watching the big game while huddled around the campfire is a breeze!

**Electric Power Cord Reel:** If you're tired of winding up unruly power cords every time you leave the campsite, you will need this feature. The electric power cord reel gathers your cord quickly and neatly with the push of a button.

**40# LP Bottles:** For a big RV, you will need some big LP. With 40# liquid propane tanks, you'll have a big energy supply to keep everything in your RV running smoothly.

**Surge Protection:** This device is made to protect your RV's electrical system in case there is a power overload. This may not be the most exciting feature, but it certainly is useful and smart when it comes to protecting and taking care of your RV.

**If you find yourself dreaming of an RV packed with these sort of features, you've got to take a look at some of the best RVs available on the lot. Here are some models you might want to take a test drive of!**

you want to protect your valuables. You always have peace of mind when your RV is locked and you are away from it, but this combination safe takes RV security to a new level.

**Ballroom Effect Slideouts (6):** Slideouts galore! In this price range, you will find that your RV gains a lot of square footage when you are parked. With some RVs featuring 6 slideouts, you can see your ride expand before your eyes with just the push of a button. You can find some floorplans that place slideouts directly across from each other, and when open, they create a large living area, or "ballroom effect."
